To Whom It May Concern:

David DeJesus has been a patient of Westside Health in the past. He has a history of hepatitis C. He recently wrote a letter to our office with concerns about this. If his Hepatitis C has not been addressed while he has been a resident of your facility, I do feel that drawing a liver profile and referring him to a Gastroenterologist (if his liver function is abnormal) would be an appropriate course of action. Thank you. Please call my office with any questions.

Sincerely,

Dear Mr. DeJesus:

I am responding to you in reference to our most recent face-to-face meeting on August 9th, in which you requested entry into the Key Program. I have communicated with the Classification Department at your facility. They informed me that you were classified to the Delaware Correctional Center (DCC) in Smyrna, and not to the Key Program at this time.

Thank you for your interest and best of luck to you in your recovery efforts.

Sincerely,

Kevin McCann
